SOME OF OUR  
 MOST THOUGHTFUL  
 DETAILS  
 ARE ONES YOU'LL  
 NEVER SEE.

A  
heritage  
of exquisite  
*detailing.*

At Sobha,  
we don't exceed  
international  
building standards,  
*we define them.*

At Sobha, we don't exceed international building standards, we define them. Our core philosophy is simple. We deliver perfection by controlling quality from inception to completion. In fact we are the only backward integrated real estate developer in the world. Which means that we are the only company that develops every element of the project from the inside to the outside, in-house; from the initial design concept to the concrete slabs, all the way to the finishing touches.

Every stage is controlled by skilled Sobha talent. We have a three-tier quality check, where others have one, to ensure meticulous standards at the time of delivery. Some might call this obsession with quality a bit excessive. We call it 'The Sobha Way'.

## Design

Architecture, interior design and landscaping are in-house capabilities at Sobha. These functions, we believe, are the cornerstones for perfect execution. Our design studio has over 70 odd, extremely talented professionals from various fields who are continually monitoring global trends and incorporating them with thought and creativity into each of our projects.

## Engineering and contracting

Our designs are usually cutting-edge and ground-breaking. And to ensure that they are equally exceptional in reality, we have created a robust engineering and contracting team. They look into the finest and biggest details of each project. From the foundation to the mechanical, electrical and plumbing details. This division is critical in the value chain of a realty business as it eliminates the likelihood of a third party contractor defaulting and gives us complete quality control.

## Material sourcing

Quality in our business starts with the finest materials. To make sure that the standards and precision used during engineering are given their due, we source materials from the best manufacturers across the world and follow a 'No Compromise' policy. From the center of the room to the corners - we manufacture or curate the best materials that lasts generations. To create more value and fit into our overall high design aesthetic, we have created in-house manufacturing capabilities in areas such as furniture and furnishings, façade, concreting and pre-casting. All this of course, using German-made machinery renowned for its precision and finesse.

## Craftsmanship

No layer of paint is uneven. The marble tiles are dry laid and adjusted aesthetically to achieve intricate vein patterns. Bathrooms are 100% leak proof and boast of zero water stagnation. 54 mm thick doors slide with the touch of a finger. We pride our team of expert craftsmen for their impeccable attention to details.

## Quality control

Our quality control team is headed by a German engineer, Olaf Wagner, whose processes find mention in the case studies of Harvard Business School. This is an area we are so passionate about, that Mr. PNC Menon himself gets involved so that the remotest defects are eliminated before presenting the project to the customer.

A lineage  
of iconic projects  
across the  
Middle East.

From Luxury villas  
to exquisite palaces,  
hotels, multiplexes and  
convention centers,

Sobha has made  
its presence felt across  
Bahrain, Dubai  
and Oman among  
the discerning.

Our forte lies in creating  
world-class projects with a  
great emphasis to detail.
